

Perspectives on Congregational Leadership

“Catalytic Leadership”

The Interim as Catalyst Leader:

- Speeds up the process
- Does not get used up in the reaction
- Is a vital part in the process
- Provides an alternative pathway for the reactions to occur.

Share reflections on your experience as an interim pastoral leader:

1. In what ways have you been a catalytic leader?
2. How do you strive to bring about change in the interim context?
3. What has been your most fruitful interim outcome? Share why.
4. What has been your least fruitful interim experience? Share why.
5. What might you do differently informed by the metaphor of catalytic leadership?
